With good chemical resistance, high UV and heat resistance, hygiene and zero bacteria tolerance.

PRODUCT PORTFOLIO

KOREAN CHARCOAL PANELS

Exclusive Korean Charcoal panels come in various textures, patterns, styles and colors. The layered material gives an embossed structure to the surface and adds volume and depth. It gives character to an interior space, enhancing homes, offices or commercial properties.

WEIYA STONE (ALABASTER SHEET)

Trend Weiya Stone Alabaster sheet is manufactured from a mineral or rock to lend a soft and abstract form and finish. Often used for carving, as well as being processed for plaster powder, the Weiya stone sheets offer a wide range of usage in interiors of homes and offices.

EDGE BANDING TAPE

Trend Edge Banding tapes are much sought-after across shopping malls, residential houses and entertainment houses for decoration and covering fine edges of furniture. Trend's entire range is designed by utilizing the finest grade materials in line with international market standards.

DECORATIVE MDF

Trend offers a taste of the contemporary through its plush and seasoned decorative MDF. Whether it's in kitchen cabinet panels or furniture in homes and offices, the high quality MDF and PVC slabs of Trend are way ahead of ordinary decorative panels and can be flexibly pasted on walls without any nailing.

PVC FLEX HIGH GLOSS LAMINATES

PVC Flex Hi-gloss Laminates offer fashionable, appealing, elegant and durable solution for home and office decor – an effective way to get superior style and elegance in interior surface design.

PVC FABRIC PREMIUM LAMINATES

Lift up the personality of your interiors with some of the widest range of PVC Fabric Premium Laminates. It's got the texture, feel and impression to delight and inspire spaces. Flexible in application, the PVC Laminates slabs of Trend give you a space makeover perfect to enhance the interior.

ACRYLIC HI-GLOSS LAMINATES

In a league of its own Acrylic Hi-Gloss panels enhance high definition design. The acrylic panels are smooth and soft to the touch as a feather and are resistant to fading, aberration and distortion. Anti-Scratch, Anti-corrosive, Anti-Acid and Anti-Alkali, Trend Acrylic Hi-Gloss boast of a vast application area.

HIGH DEFINITION DIGITAL LAMINATES

Synonymous with stylish living, high definition, high-pressure digital laminates are eco-friendly and offers an extensive range of decorative laminates for homes, offices and a variety of spaces – lending grace and grandeur to breathtaking interiors.

PLYWOOD & FLUSH DOOR

Bonded at high pressure and temperature, from high quality hardwood timber the block-board core is framed with seasoned hardwood battens and strengthened by a layer of cross-bands with face veneers, the doors are enduring and offer perfect finish.

GLASS LAMINATES

Trend Glass Laminates hold together when shattered lending to the safety. Laminated glass is used when there is a possibility of human impact or where the glass could fall if shattered and also for architectural applications. Skylight glazing and automobile windshield typically use laminated glass.

WPC & PVC BOARDS

Long life, environment-friendly, the WPC board has an excellent performance. It is anti-UV, waterproof, anti-cracking and mothproof. This high strength, low-cost board has a significantly low maintenance cost and can last from 20 to 30 years.

3D PVC PANEL

Get the all-encompassing beauty of 2D and 3D PVC Panels from Trend. Give the interiors a designer white wall impression which is unmatched and exclusive. All about inspired elegance, the white PVC Panels are made out of 100% natural materials and help transform walls into elegant looking inspirational white.

Do not use chemicals for cleaning.

Avoid direct sunlight / continuous light. These may cause colour fading.

Extra care required in vertical pasting of laminates sheet as there is possibility of bubbles due to lack of uniform pressure.

Cracking at corners and around cuts may be caused by improper conditioning, improper bonding, poor planning. Avoid all these to prevent cracking at corners.

Notes:

All tests may not be valid for metallic Laminates.
 Samples pasted, represent only colour, pattern and finish, not actual thickness. There may be slight variation in shades in batch to batch, particularly in Metallic designs.
 Bonding of laminate under high humidity, plywood with high moisture content, ply with uneven surface, inferior quality adhesive and insufficient pressure may lead to delamination/ air bubbles in between ply and laminate.
 TREND warrants that its product are free from manufacturing defects and they are fit and suitable for usual purpose under normal and proper use. The product must be inspected prior to installation and our liability will be limited to the extent of the product only.
